

## MEDIA RELEASE

April 2009

### **Sunbeam captures quintessential Australian living with new portable gas barbecue**

Sunbeam has captured Australia's love-affair with barbecues and the outdoors with the launch of the brand's first portable gas barbecue - the **Innovo Thermo-Twin Portable Gas BBQ GB2100**.

Perfect for any occasion from barbecuing at home to camping trips or even a day at the park, the new Innovo delivers all of the performance of a large four burner gas barbecue in a compact and portable package. Designed for busy, on the go Australians, the barbecue comes with an easy-to-assemble trolley and removable side shelves – making it flexible for transportation and storage.

Turning even the most novice barbecuers into experienced chefs, the Innovo Thermo-Twin features Sunbeam's revolutionary three-tier system that delivers even heat distribution across the whole cooking surface for perfect cooking results. Ensuring that you wow guests with a perfectly seared steak every time, the Sunbeam system delivers extra heat where it's most lacking. This is matched with a flame tamer positioned above the burners that directs heat to all areas of the barbecue.

The barbecue also features a heavy-duty grill plate and reversible flat plate, with independent burner controls – creating two cooking zones for quick and efficient cooking. Other features include a die cast aluminium roasting hood with 304 stainless steel wrap, easy-to-use piezo ignition and additional storage space on the trolley for the gas bottle – giving you convenient, delicious barbecuing anytime, anywhere.

**Sunbeam Innovo Thermo-Twin Portable Gas BBQ GB2100, \$599 RRP**
