Congratulations on the purchase of your Sunbeam Café Series® Food Processor. The Sunbeam Café Series® delivers quality, style and superior performance capturing the essence of the commercial kitchen.

Inspired by heavy-duty equipment found in restaurants, cafes and bars, the Sunbeam Café Series® is built to last. It brings together a range of appliances designed to expertly create authentic café food and beverages at home.

Uncompromising blends of stainless steel, chrome and die-cast alloy characterise the range. This combined with advanced technology and functional design, guarantee the performance, that each product will surpass expectations.

The Sunbeam Café Series® Food Processor is designed with quality components, a die-cast metal base and includes a number of features, to create a versatile addition to your kitchen.
SAFETY PRECAUTIONS FOR YOUR SUNBEAM FOOD PROCESSOR LC9000.

• Always use extreme care when handling blades and cutting discs. These are extremely sharp and may cause injury if handled incorrectly. Always store blades and cutting discs in their respective covers or processing containers.
• Unplug from power outlet when not in use, before putting on or taking off attachments, and before cleaning.
• Do not put hot liquids into the processing bowl. Cool to room temperature before placing in processing bowl.
• Avoid contacting moving parts at all times.
• Place the processing bowl onto the base of the processor before fitting any attachments.

Sunbeam is very safety conscious when designing and manufacturing consumer products, but it is essential that the product user also exercise care when using an electrical appliance. Listed below are precautions which are essential for the safe use of an electrical appliance:

• Read carefully and save all the instructions provided with an appliance.
• Always turn the power off at the power outlet before you insert or remove a plug. Remove by grasping the plug - do not pull on the cord.
• Turn the power off and remove the plug when the appliance is not in use and before cleaning.
• Do not use your appliance with an extension cord unless this cord has been checked and tested by a qualified technician or service person.
• Always use your appliance from a power outlet of the voltage (A.C. only) marked on the appliance.
• This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
• Children should be supervised to ensure that they do not play with the appliance.
• The temperature of accessible surfaces may be high when the appliance is operating.
• Never leave an appliance unattended while in use.

• All blades and attachments should be removed with care before cleaning.
• Do not over fill the processor.
• Do not process for longer than the time periods recommended in the operating chart.
• Always remove the blade before emptying the processing bowl of its contents.
• Do not operate for more than 30 seconds at a time when processing heavy loads. None of the recipes in this manual are considered a ‘heavy load’.
• Take care when removing the bowl from the base, emptying the bowl or during fitting and removal of blade system, as blades are extremely sharp.

If you have any concerns regarding the performance and use of your appliance, please visit www.sunbeam.com.au or contact the Sunbeam Consumer Service Line.

Ensure the above safety precautions are understood.
Features of your Café Series® Food Processor

**Processing cover**
The processing cover or lid of bowl provides a safety feature to the appliance. The appliance will not operate unless the bowl, cover and large feed pusher are correctly positioned and locked into place.

**1400 watt induction motor**
The die-cast base houses a powerful 1400 watt motor. This motor is ideal for high load applications during processing, and provides a greater starting strength whilst maintaining speed throughout. The Cafe Series® Food Processor motor is reliable, quiet, will provide a long life and is backed by a 10 year guarantee.

**START/STOP button**
For easy use the START/STOP button starts and stops the operation of the food processor.

**Auto Pulse**
The Auto Pulse function is a clever and versatile feature providing short bursts of processing, for a set length of time. Creating bread or biscuit crumbs couldn’t be easier.

**Pulse**
The control panel includes a Pulse function for optimum cutting precision during processing.

**Storage drawer**
The unique drawer design enables attachments to be stored conveniently, and safely, within the appliance when not in use.

**Non-slip feet**
Keeps the food processor secure on the bench top during use.
Food Pushers
The food pushers assist in guiding the food through the chute to ensure ingredients hit the blade vertically for best processing results. Three food pushers are included, depending on the size of the chute being used and the size of foods. For thinner foods, use the smaller internal pusher for consistent even slicing. This pusher also doubles as a measuring cup.

Wide Chute
At 14cm’s wide, the extra wide chute eliminates the need to cut most ingredients, to fit into the chute. Guide ingredients through the chute into the selected blades. Additional ingredients can be added during other processing tasks.

Chute Safety Feature
The wide chute pusher provides a safety interlock feature to the appliance. The motor will not operate unless the bowl and lid are correctly locked in position, and the large feed pusher is inserted.

Spindle
Drives all the food processing attachments. The spindle must be in place to operate the food processor.

Processing bowl with handle
Large 2 litre capacity processing bowl. The handle of the processing bowl includes a patent-pending robust stainless steel interlock that prevents food catching and building up, ensuring easy cleaning.

Second processing bowl
The smaller processing bowl is ideal for small amounts of ingredients. At 400ml in volume, this bowl is perfect for chopping nuts, creating pesto or chopping herbs.

Cord storage facility
For added convenience the unused cord length can easily be pushed into the base of the processor for storage.
1. Universal 's' blade
Stainless steel smooth edged processing blade is designed for cutting, kneading, whisking and emulsifying. The second smaller ‘s’ blade is suitable for the smaller bowl.

2. Variable slicing blade
The variable stainless steel slicing blade allows foods to be sliced to a variety of thicknesses, up to 7mm. This blade can not be used in the small processing bowl.

3. Julienne disc
The stainless steel julienne blade is perfect for achieving consistent julienne cut food, perfect for salad, stir fry or garnishing.

4. Reversible shredding disc - fine and coarse
Ideal control, the reversible stainless steel shredding blades allow for the choice of fine or coarse results.

5. Reversible grating and shaving disc
Unique to processing is the shaving blade. It does lovely thin flakes, great for parmesan and sweet potato crisps. The alternate side is ideal for hard cheeses and chocolate.
Using your Café Series® Food Processor

- Before using your Cafe Series® Food Processor, familiarise yourself with all parts, remove all promotional and packaging materials. Use caution when handling blades, as blades are sharp.
- Wash the processing bowl, processing cover and all attachments in warm water using a mild detergent. Dry each part thoroughly before use.
- Before you assemble the food processor, ensure that the power cord is unplugged.

1. Place the motor base facing you on a dry, level surface.
2. Place the processing bowl onto the motor base, the bowl will only sit correctly on the base when the handle is positioned to the right, see figure 1.
3. Rotate the handle clockwise to lock, as indicated by the graphics on the left side of the motorbase, see figure 2.
4. Position the lid onto the processing bowl. You will notice a solid grey line to the left of the holding lip on the lid, when placing the lid onto the bowl this arrow needs to align with the solid grey line on the handle of the bowl. To lock, turn the lid clockwise, as indicated by the graphics, on the top of the handle, see figure 3.
Using your Café Series® Food Processor continued

**Important:** If the processing bowl, processing cover and large pusher are not correctly assembled, the food processor will not operate. This is a safety feature.

**Using your Food Processor**

1. Plug the power cord into a 230-240V AC power outlet and turn the power ‘ON’.

2. Using the START/STOP button on the control panel, press once to start processing. The Pulse function remains on as long as the Pulse button is pressed down. The Auto Pulse function will run for a predetermined length of time. Further ingredients can be added whilst the appliance is running by pouring through the medium or small feed tube once the food pusher/s have been removed. Removing the large pusher will stop the motor running.

3. After you have completed processing, press the START/STOP button to stop processing.

**Note:** For maximum control, load the feed tube before turning on your food processor. Always use the food pusher for more evenly processed foods and never push with your fingers.

**Important:** The food processor is fitted with a safety thermal cut-out device and will shut off in the event of overload. If this occurs, switch the appliance off and it will automatically reset when cool.
Note: All attachments must be firmly attached to the spindle. Always adjust the attachments until you are sure that they are correctly fitted.

Placing the spindle
1. Fit the spindle onto the drive shaft, see figure 4.

Universal 's' Blade
1. Fit the processing bowl and spindle as detailed previously in figures 1, 2 & 4.
2. Fit the universal 's' blade over the spindle and press firmly into place, see figure 5.

Warning: Use caution, as blades are sharp. Always handle the processing blade by its central plastic section.

3. Place food into the processing bowl.
4. Fit the processing cover to the processing bowl, see figure 3 and place the food pusher in the feed chute.
5. Plug the power cord into a 230-240V AC power outlet and turn the power ‘ON’.
6. Start processing using the START/STOP or Pulse buttons.
7. When processing is complete, remove the spindle and blade from the processing bowl before removing the processed food.
Reversible grating/shaving, shredding and julienne discs
1. Fit the processing bowl and spindle as detailed previously, in figures 1, 2 and 4.
2. Select the 'Reversible' disc of your choice – Shredding (fine or coarse), Grating/Shaving or the dedicated Julienne disc.
3. Fit the disc over the spindle and press firmly into place, see figure 6.
Warning: Use caution as the blades are sharp.

Variable slicing blade
1. Fit the processing bowl and spindle as detailed previously in figures 1, 2 and 4.
2. Fit the slicing disc over the spindle and press firmly into place, see figure 7.

Warning: The variable slicing blade can be used in the large processing bowl only. Do Not use the variable slicing blade in the small bowl.

Warning: Use caution as the blades are sharp.

4. Fit the processing cover to the processing bowl as previously shown in figure 3 and place the food pusher in the feed chute.
5. Plug the power cord into a 230-240V AC power outlet and turn the power 'ON'.
6. Start processing using the START/STOP button.
7. When processing is complete, remove the disc and spindle from the processing bowl before removing the processed food.
The Café Series® Food Processor was designed so that all attachments can be stored within the unit itself, see figure 8.

3. Place one of the 'Reversible discs' in storage drawer as indicated in figure 10.

Storage drawer

The 'Julienne Blade', 'Reversible Shredding' disc, 'Reversible Grating and Shaving' disc are all stored in the storage drawer.

1. Slide out the storage drawer at the base of the food processor.

2. Place the small universal ‘s’ blade at the rear of the drawer as indicated in figure 9.

4. Place the 'Julienne Disc' in the storage drawer as indicated in figure 11.

5. Place the remaining 'Reversible Disc' in on top of the first 'Julienne Disc' as indicated in figure 12.
6. Close storage drawer, see figure 13.

**Processing bowl storage**, see figure 14.
1. Place the processing bowl onto the base of the food processor.
2. Fit the spindle over the drive shaft.
3. Fit the large universal 's' blade over spindle.
3. Place the small bowl inside the large bowl.
4. Place the 'Variable Slicing' blade over the spindle and then fit the processing cover to the processing bowl.

**Cord storage**
The power cord can be stored by pushing it into the back of the motor base, see figure 15.
Handy hints for Processing

**Chopping**
For the best, most consistent results, you should try to process pieces of food that are approximately equal in size. When you break, cut or tear food into uniform pieces before you begin processing, the finished results will be more uniform.

More consistent processing results are achieved if the container is not overloaded.

**Mincing**
Pre-cut meat into cubes approximately 2cm square.

**Vegetables**
When processing vegetables such as onions, peel and quarter or cut large vegetables into eighths.

**Mixing**
The quantities that can be processed within the Processing bowl will vary with the density of the mixture.

**For best results with cheese**
Softer cheeses such as Cheddar or Swiss should be well chilled before processing. For best results with harder cheeses such as Parmesan or Romano, use the shaving disc, with the cheese at room temperature.

**Note:** When grating parmesan cheese do not apply a lot of pressure to the food pusher.

**Soups**
When preparing soups, always allow ingredients to cool to room temperature, before processing.

**Adding Ingredients**
When various recipes require dry ingredients such as flour, add them directly into the processing bowl before processing. There is no need to sift ingredients when using your food processor. Liquid ingredients may be added while the processor is operating by pouring through the feed tube in the processor cover.

**Note:** When processing sauces or semi-liquid ingredients, stop the food processor and scrape down the container sides with the spatula provided.

**Using the Feed Tube**
The most important factor for successful slicing and shredding is the way in which the food is packed into the feed tube.

**When slicing, shredding, shaving or grating**
Cut all ingredients to a size that fits comfortably into the feed tube. Pack the feed tube and, while holding food steady and upright with the food pusher, press down evenly until all ingredients are sliced or shredded. The more firmly you push, the thicker the slices or shreds. Do not use excessive force or you may damage the food processor.

**Note:** Never use fingers to push food down the feed tube. Always use the food pusher.

**For best results when slicing**
The feed tube should always be packed firmly to allow each piece of food to support the others. There will always be a small portion of food left unprocessed between the food pusher and the blade.
Preparing longer slices
Pack food items horizontally in the feed tube, see figure 16.

Preparing shorter slices
Pack the food items vertically in the feed tube, see figure 17.

Food Pusher
Use the food pushers to help guide food through the chute for even, consistent processing. Use the smaller food pushers for smaller, thinner foods for best results.

Note: Always wait for the universal ‘s’ blade or any attachments to stop moving completely before removing the processing cover.

Warning: Use extreme caution, as blades are sharp. Always handle the universal ‘s’ blade by its central plastic section.

Warning: The variable slicing blade can be used in the large processing bowl only. Do Not use the variable slicing blade in the small bowl.
Care and cleaning

When you have finished processing, unplug the Cafè Series® Food Processor from the power outlet.

All accessories and processor tools can be washed in hot soapy water except for the processor body. Clean the processor body by wiping with a damp cloth.

**Warning:** Care must be taken when handling the metal blades as these items are extremely sharp.

**Note:** Always unplug the Cafè Series® Food Processor before cleaning.

**Dishwasher Use**

All plastic components deteriorate through the prolonged use of a dishwasher for cleaning.

We do not recommend to place any parts of the food processor in the dishwasher.

If using the dishwasher, place parts only on the top rack of your dishwasher. Do not place any parts in the bottom racks. This may cause plastic parts to distort due to the heating element in the dishwasher.
Basic White Loaf
Makes: 1 loaf
½ cup warm milk
¼ cup warm water
1 tablespoon caster sugar
1 teaspoon yeast
1 ¾ cups plain flour
60g butter, melted
1 teaspoon salt

1. In a small bowl combine milk, water, sugar and yeast. Allow to stand in a warm place until mixture begins to foam.

2. Using the large bowl fitted with the large universal ‘s’ blade, add flour, butter, salt and yeast mixture. Process until dough forms a ball.

3. Turn dough out onto a lightly floured surface and knead gently.

4. Place dough into a greased bowl, cover and allow to rise in a warm place until doubled in size. This will take approximately 30-40 minutes.

5. Preheat oven to 180°C. Lightly grease a loaf pan.

6. Punch down the dough and place in loaf pan.

7. Bake for 30 minutes and until loaf sounds hollow when the base is tapped.

Pizza Dough
½ cup lukewarm milk
2 teaspoons yeast
1 teaspoon caster sugar
2 cups plain flour
2 teaspoons salt
1 egg
60g butter, melted

1. In a small bowl combine milk, yeast and sugar. Allow to stand in a warm place until mixture begins to foam.

2. Using the large processing bowl fitted with universal ‘s’ blade process flour, salt, egg and butter.

3. Add yeast mixture to the bowl and press auto pulse. Place dough onto a floured surface and knead gently until smooth.

4. Place in a greased bowl, cover and allow to rise in a warm place until doubled in size about 30-40 minutes.

5. Turn dough out of bowl and halve. Roll into two 26cm circles.
Short Crust Pastry
2 cups plain flour
125g butter, room temperature
1 egg yolk
1 tablespoon iced water

1. Using the large processing bowl fitted with the large universal ‘s’ blade process flour, butter, egg yolk and water until mixture forms a ball.

2. Knead pastry until smooth shaping into a disk. Wrap pastry in plastic wrap and refrigerate for 30 minutes before use.

Sweet Short Crust Pastry
2 cups plain flour
½ cup icing sugar
125g butter, room temperature
2 egg yolks
1 tablespoon iced water

1. Using the large processing bowl fitted with the large universal ‘s’ blade process flour, icing sugar, butter, egg yolks and water until mixture forms a ball.

2. Knead pastry until smooth then shape into a disk. Wrap pastry in plastic wrap and refrigerate for 30 minutes before use.
Olive and Rosemary Focaccia Bread

Makes: 1 loaf

1 cup lukewarm water
2 teaspoons yeast
1 teaspoon caster sugar
4 cups plain flour
2 teaspoons salt
2/3 cup olive oil
1/2 cup kalamata olives, pitted
2 tablespoons fresh rosemary leaves
Salt and freshly ground black pepper, to taste

1. In a small bowl combine water, yeast and sugar. Allow to stand in a warm place until mixture begins to foam.
2. Using the large processing bowl fitted with the large universal ‘s’ blade, process flour and salt. Add yeast mixture with half of the oil. Select Auto Pulse.
3. Shape dough into a ball and place in a greased bowl, cover. Allow to stand in a warm place until dough has doubled in size approx. 30-40 minutes
4. Lightly grease 2 rectangular baking trays. Preheat oven to moderately hot 180°C.
5. Roll each portion of dough on a lightly floured surface to about 1cm thick. Place on prepared baking trays.
6. Cover and allow to rise for about 30 minutes. Using your knuckles, press small indents into the dough. Brush with remaining oil and sprinkle with olives, rosemary and salt. Bake for 30 minutes or until golden.
Chimmichurri

This is a great sauce for steaks or any grilled meat.

Makes: 2 ½ cups
1 bunch fresh flat leaf parsley
2 cloves garlic
½ red onion
½ cup olive oil
¼ cup red wine vinegar
2 teaspoons lemon juice
1 teaspoon fresh oregano
Salt and freshly ground black pepper, to taste

1. Using the small processing bowl fitted with the small universal ‘s’ blade process parsley, garlic and onion until roughly chopped.

2. Add remaining ingredients through the small chute and process until all ingredients are finely chopped. Season to taste with salt and pepper.

3. Store in a clean, covered container in the refrigerator for up to one week.

TIP: This sauce is also great for marinading. Marinade meat in half of the chimmichurri then serve with the remaining sauce.

Basil and Cashew Pesto

Spread on a thick piece of bread for a quick snack.

Makes: 2 cups
1 bunch fresh basil
1 bunch fresh flat-leaf parsley
1 clove garlic
1 ½ cups cashew nuts, roasted
1 cup baby spinach
½ cup olive oil
1 tablespoon lemon juice
Salt and freshly ground black pepper, to taste

1. Using the large processing bowl fitted with the large universal ‘s’ blade process all ingredients until roughly chopped. Season to taste with salt and pepper.

2. Store in a clean, covered container in the refrigerator for up to one week.
**Hummus**

Makes: 2 cups

2 400g cans chickpeas, drained, rinsed
1 clove garlic
⅓ cup olive oil
1 tablespoon lemon juice
1 tablespoon tahini
¼ cup water
Salt and freshly ground black pepper, to taste

1. Using the small processing bowl fitted with the small universal ‘s’ blade process all ingredients, excluding water, until a smooth paste. With motor running slowly add water until desired consistency. Season to taste with salt and pepper.

2. Store in a clean, covered container in the refrigerator for up to one week.

**TIP:** Add a teaspoon of your favourite ground spice for a twist.

---

**Satay Sauce**

Makes: 2 cups

1 cup peanuts, roasted
½ cup vegetable oil
2 cloves garlic
1 long red chilli, deseeded
½ red onion
1 tablespoon dark soy sauce
2 teaspoons brown sugar
1 teaspoon shrimp paste
¾ cup water
1 tablespoon lemon juice
Salt and freshly ground black pepper, to taste

1. Using the small processing bowl fitted with the small universal ‘s’ blade process peanuts, oil, garlic, chilli and onion until a chunky paste is formed.

2. Cook paste over medium heat for 1-2 minutes or until fragrant. Add soy, sugar and shrimp paste cooking for a further minute. Add remaining ingredients to the pan, whisking to combine. Bring to a simmer and cook for 15-20 minutes or until slightly thickened. Season to taste with salt and pepper.

3. Store in a clean, covered container in the refrigerator for up to one week.
Roasted Beetroot Dip

Makes: 3 cups

3 large beetroot
1 clove garlic
2 tablespoons olive oil
1 tablespoon lemon juice
½ teaspoon ground coriander
½ teaspoon ground cumin
Salt and freshly ground black pepper, to taste

1. Preheat oven to 180°C.
2. Place whole beetroot in the middle of a square of tinfoil with garlic and half of the olive oil. Bring edges of tinfoil together to form a parcel. Place in oven and bake for 30-40 minutes or until beetroot are tender.
3. Once beetroot have cooled, rub the skin off and cut in half.
4. Place all ingredients into the large processing bowl fitted with the large universal ‘s’ blade. Process until smooth. Season to taste with salt and pepper.
5. Store in a clean, covered container in the refrigerator for up to one week.

Sweet and Sticky Barbecue Sauce

This sauce is great served on burgers or barbecued meats.

Makes: 2 ½ cups

The Sunbeam 10 Year Motor Guarantee

Sunbeam has built its reputation on manufacturing quality electrical appliances. Our Cafe Series® Food Processor is constructed from the highest quality materials. So much so, we guarantee our Food Processor motor for ten (10) years against faulty materials or manufacture. This guarantee is just another expression of our confidence in the way we make appliances at Sunbeam. In order to be eligible for this guarantee, you must retain your receipt as proof of purchase.

Your Cafe Series® Food Processor is covered for the first year against faulty material or manufacture by the Sunbeam 12 Month Replacement Guarantee. Should you experience any difficulties with your appliance within this 12 Month period, please phone our customer service line for advice on 1300 881 861 in Australia, or 0800 786 232 in New Zealand.

The Sunbeam (10) ten year motor guarantee begins from date of purchase and extends for nine years beyond the 12 Month Replacement Guarantee. It covers only the motor, guaranteeing it against faulty materials or manufacture. It does not cover damage caused by accident, misuse or being used in a manner not in accordance with the Instruction Book. Similarly, this motor guarantee does not cover freight or any other costs incurred in making a claim.

If a fault should develop with the motor after the period covered by the 12 Month Replacement Guarantee, please call Sunbeam Customer Service on the number listed below or send a written claim to Sunbeam at the address listed below. On receipt of your claim, Sunbeam will advise you on how to obtain a replacement motor if your motor is defective.

Alternatively, you can return the Cafe Series® Food Processor to any of Sunbeam’s authorised service centres, together with your receipt. The service centre will examine the motor and if it is faulty or defective, the motor will be replaced free of charge.

The benefits given to you by this guarantee are in addition to your other rights and remedies under any laws which relate to the appliance.

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law and under the New Zealand Consumer Guarantees Act. In Australia you are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

IMPORTANT NOTE
Sunbeam agrees to replace the motor in the event of the motor developing a fault or defect, within the four years after the 12 Month Replacement Guarantee.

As your Cafe Series® Food Processor needs to be assessed at a Sunbeam authorised service centre, it will not be accepted through retail stores.

If using the Cafe Series® Food Processor for commercial use this motor guarantee is limited to 12 months from the date of purchase.
12 Month Replacement Guarantee
